

LUCCIARE GENESIS

Nature's Masterpiece, Crafted To Inspire

LUCCIARE GENESIS

Lucciare has extensive experience in the production of traditional artificial stone. However, conventional industrial methods and equipment limit our ability to achieve colors and appearances that truly mimic natural stone. This challenge inspired us to embark on the Genesis research.

Genesis Surfaces represent a breakthrough in material innovation. Crafted from patented materials and developed using state-of-the-art 3D printing technology, Genesis delivers unmatched realism and precision, setting a new standard for engineered stone.

MAIN APPLICATIONS

Lucciare Genesis Surfaces represent the pinnacle of engineered stone innovation, combining exceptional durability, versatility, and aesthetic flexibility to meet the demands of both residential and commercial applications. Crafted from a unique blend of natural stone aggregates, resins, and pigments, Lucciare Genesis Surfaces offer a visually striking, high-performance material that caters to a variety of design needs.

Kithen Countertops

Durability: Highly resistant to scratching, staining, and heat, making it an ideal choice for kitchen and bathroom countertops.

Aesthetic Appeal: Available in a wide range of colors, patterns, and textures

Bathroom Vanities and Countertops

Sleek Look: The modern, minimalist aesthetic and seamless design of Lucciare Genesis Surfaces gives bathrooms a refined elegant, luxurious look.

Customizable: These surfaces can be crafted into various shapes, sizes, and edge profiles to fit different vanity designs.

Fireplace surrounds, shower walls, and tub surrounds

The 12mm bookmatched surface of Lucciare Genesis Surfaces showcases a refined, mirrored design, perfect for fireplace surrounds, shower walls, and tub surrounds. Combining exceptional durability, heat resistance, and waterproof qualities, it provides a sophisticated, low-maintenance solution for high-moisture environments.

Wall Cladding and Backsplashes

Seamless Design: Lucciare Genesis Surfaces can be used for wall cladding and backsplashes to create a cohesive, seamless look throughout a space.

Aesthetic Variety: With a range of colors and textures, they can match any design scheme, adding a stylish, modern touch to walls.

Backlit Surfaces for Design Features

The translucency of Lucciare Genesis Surfaces allows for backlit designs, enhancing features like countertops, bar tops, and wall panels with striking visual effects. Paired with LED lighting, it creates dynamic, atmosphere-shifting elements for any space.

Residential Staircases

Lucciare Genesis Surfaces are perfect for residential staircases, offering durability, a sleek aesthetic, and low maintenance. Resistant to scratches and stains, they provide a modern, sophisticated look while being easy to clean and safe to use.

INSPIRATIONS

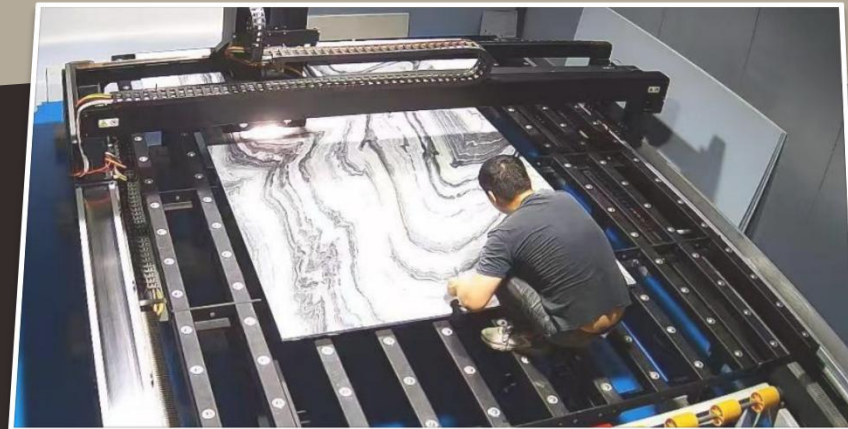

We source the world's most exceptional and breathtaking natural stones, ensuring only the finest materials for our surfaces. Each stone is carefully selected for its beauty and unique character, bringing a touch of nature's grandeur to every design.

By utilizing state-of-the-art stone scanning technology, we capture high-definition images of each slab. This advanced process ensures unparalleled detail and accuracy, allowing us to preserve the natural beauty of the stone in its purest form.

With Lucciare Genesis, we offer you exclusive design selections that can't be found anywhere else. Our commitment to quality and innovation guarantees that each surface is a one-of-a-kind piece, adding an exceptional touch to your space.

TRANSLUCENCY

Genesis Surfaces delivers striking backlit effects, elevating spaces with modern elegance.

The translucency of Genesis Surfaces adds a unique visual depth, allowing light to pass through the material for a striking effect. This quality makes it ideal for backlit applications, creating dynamic, atmospheric designs for countertops, wall panels, and other interior elements. The translucency enhances its elegance, offering a sophisticated, modern look that shifts with changing light conditions, elevating the overall aesthetic of any space.

Ultraviolet Light Resistance	ASTM G23	Passes
Flame Spread Index	ASTM E84-09c	5
Smoke Developed Index	ASTM E84-09c	50
Stain Resistance		Not Affected

Frequently Asked Questions:

Why is the industry so excited about Lucciare®?

The industry, and interior designers, continue to deliver accolades about Lucciare®. Lucciare® uses innovative technology combined with handcrafted beautiful designs which highlight the beauty of nature, with durability which will last a lifetime. Check out the latest designs by Lucciare®!

How do I choose the right color for my kitchen?

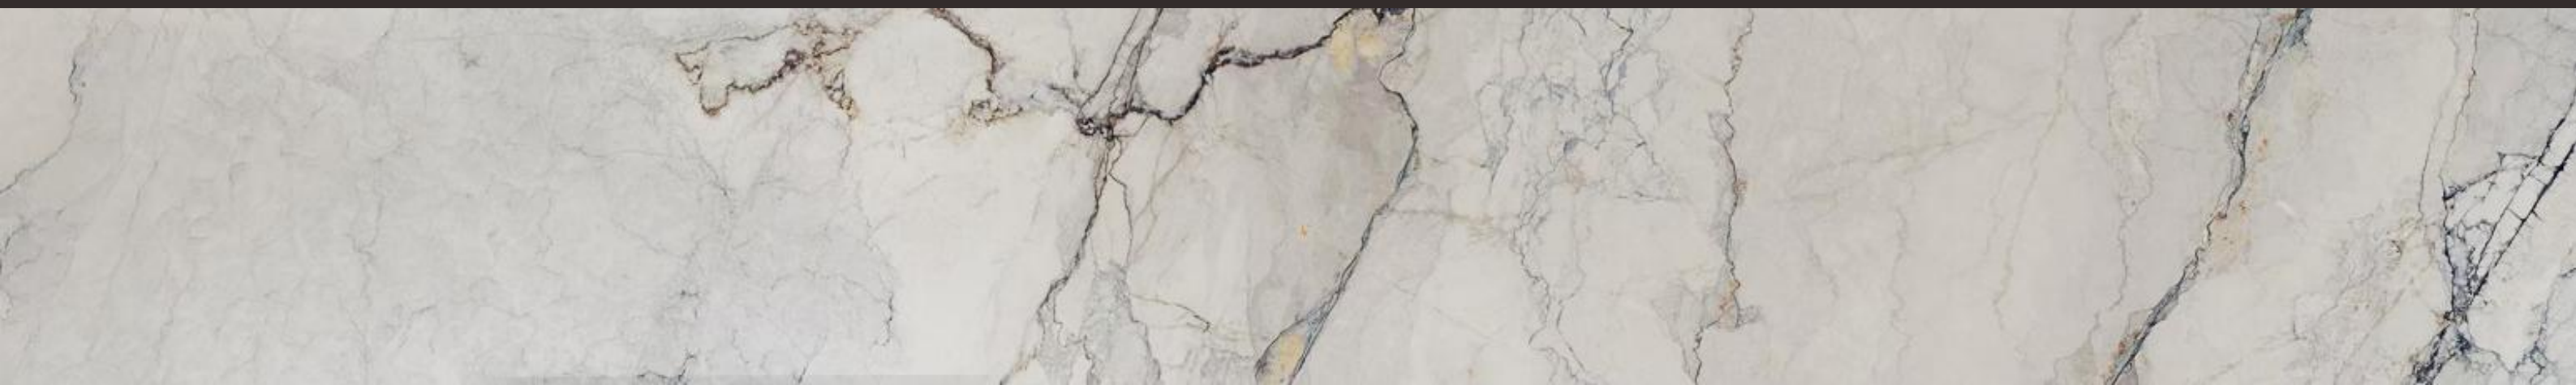

This is by far the most important aspect of your kitchen remodel. As the centerpiece of the kitchen, we recommend selecting your countertop FIRST. This all-important decision will ultimately make your cabinet, flooring, paint, and appliance selection much easier. The color of your countertops can make a big difference in the visual dimensions of your kitchen or bathroom. Light colors will create a sense of space, enlarging the room visually. If you have a small kitchen or bath, our countertops in white, cream, beige or gray may be preferable to darker tones. In a larger kitchen or a game room, a dark gray, brown or dramatic black surface can add style and elegance to your interior.

Beyond the kitchen, Lucciare® surfaces will influence a room's atmosphere and character. If you're decorating a professional office, a black or charcoal countertop can give your decor a sense of dignity and stability. In a master bathroom, a rich gold or beige creates luxurious feeling to start your day. Lucciare's® patented and handmade production techniques enable it to be variegated with flecks or swirls of various colors deep within the surface, inspired by classic mined stone that has long been depleted from the earth.

Can Bacteria breed on Lucciare® Surfaces?

Protecting food from exposure to bacteria is a big concern in the kitchen. Lucciare® countertops are non-porous and do not have any tiny openings in the surface. Unlike wood and some forms of stone, it will not absorb water or other liquids. However, it is not totally impervious to a sharp knife. Use a cutting board to avoid scratching your countertops.

The bathroom is a place where germs also tend to grow. The moisture and warmth in the bathroom make it a breeding ground for bacteria, mold and mildew. A vanity topped with Lucciare® offers protection against bacterial growth as well as longevity and beauty. With regular cleaning from a non-abrasive non-bleach cleaner will keep bacteria away.

Care Instructions

Lucciare® surfaces are designed to last—and since they are hard and non-porous, they’re very easy to clean and maintain, requiring no sealing or polishing.

For basic day-to-day wear, we advise simply using lukewarm water on a paper towel (or clean soft cloth) and a small amount of a gentle soap or detergent to clean your countertops. If more vigorous cleaning is needed, use a non-abrasive / non-bleach household cleaner, then rinse with lukewarm water and dry right away with a clean soft cloth or paper towel.

Should you need to remove stubborn debris or adhesives such as tape, nail polish or sticky foods, be sure to scrape excess substances from the surfaces—a plastic putty knife is ideal for gently removing common adhesives. Once removed, use soap and water or a non-abrasive cleaner to wipe away any residuals. For liquid spills or rings, be sure to dry the surface thoroughly before cleaning*

Lucciare® has been formulated to resist permanent staining when exposed to the myriad of liquids, spices and other “staining agents” commonly used. However, we recommend you wipe clean (as per above) any liquid or food spills right away.

Given the polished finish on Lucciare surfaces, it’s common for fingerprints, metal marks and other basic wear and tear to show. In most cases, a basic cleaning as outlined above will restore surfaces. Please also be aware that there is no need to ever use any topical treatments, conditioners or sealers on Lucciare surfaces.

Lucciare Surfaces are formulated to be scratch and heat resistant. However, since they are not scratch and heat “proof”, we recommend you always use a cutting board and trivets or pads as needed. Please do not cut, dice or chop anything on your countertop.

Although Lucciare surfaces are considered non-porous, if it is your desire to disinfect your countertops, we recommend any of the following disinfectants which are compliant with the Centers for Disease Control and Prevention guidelines:

Although Lucciare surfaces are considered non-porous, if it is your desire to disinfect your countertops, we recommend any of the following disinfectants which are compliant with the Centers for Disease Control and Prevention guidelines:

Jif Cleaner.*

70% Isopropyl Rubbing Alcohol.*

Avoid using high alkaline cleaners, harsh chemicals or solvents.

*Please Note: If taking the extra-step to disinfect as we recommend, please be sure to use lukewarm water and a paper towel to remove any disinfectant residual.

To preserve the stone surface and maintain its original luster, regular cleaning is essential. Use a few drops of a neutral cleaner or a mild washing-up liquid for optimal results. Gently wipe the surface with a cloth dipped in warm water to prevent any potential scratching. After cleaning, thoroughly rinse with water and ensure the surface is dried for a pristine finish.

With some basic care for quartz countertop, your Lucciare surface will look fresh, clean, and polished—as beautiful as the day they were installed.
