

SOLSTICE COLLECTION

Not All Quartz Is
Made for the
Outdoors

This One Is.

Built to last,
Made to Inspire

Introducing Solstice Collection

Inspired by nature.
Engineered for endurance.
Designed for modern
outdoor living.

Solstice is an advanced outdoor quartz surface engineered to combine timeless luxury with lasting durability. Designed to withstand the elements, it resists UV exposure, temperature extremes, and daily wear while maintaining the rich aesthetics of natural stone. Whether enhancing outdoor kitchens, bar tops, or entertainment spaces, Solstice offers a seamless blend of beauty and resilience.

Key Benefits

Outdoor-Ready Performance

UV & Weather Resistant:

Against fading, yellowing, or discoloration.

Non-Porous & Stain Resistant:

Resists spills, moisture, and bacterial growth

Low Maintenance:

No sealing or special treatments required.

Engineered for Durability

High Impact & Scratch Resistance

Tough enough for outdoor conditions.

Thermal Stability

Performs in extreme heat and cold.

Non-Porous Composition

Prevents water absorption and cracking.

Sustainability Innovation

Fritech Technology

Engineered quartz with recycled minerals for strength and sustainability.

Eco-Resin

Low-carbon binder made from recycled content, designed for enhanced durability and outdoor performance.

Low & Zero Silica

Safer for fabrication and installation.

Aesthetic Innovation

Indoor Use

Eco-Resin resists oily fingerprints better than textured or honed materials.

Natural Stone Inspiration

Realistic veining and depth.

Versatile

Pairs well with wood, concrete, stainless steel, and porcelain. Perfect for modern and classic styles.
